Meet your partners!

Virtual Teaching Collaboration between Germany and Taiwan

We would like to invite you to our networking event to meet with professors and university staff from Karlsruhe and Taiwan. You will have the opportunity to explore more about teaching and learning in international virtual teams, ask questions, tell your stories and, most importantly, meet partners for common digital teaching projects.

HKA Karlsruhe University of Applied Sciences is happy to present its new internationalization project: The Bachelor International. At the core of this project are the development and introduction of new collaborative digital teaching formats with our six partner universities from the Taiwan University Alliance for Applied Sciences (TAItech).
