

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

No.	Department	Vacancy	Name of professor/ Email	Qualifications	Stipends per month	Application Documents
1	Mold and Die Engineering	1	張致遠 Chih-Yuan Chang cychang@nkust.edu.tw	Recruit Requirement: Master/Ph.D. Student Graduated in Science and Engineering related discipline (Background: Mechanical, Mold and Die, or Mechatronics)	NT\$3,000/month	1. Personal CV 2. Master thesis
2	Mold and Die Engineering	1	許文政 Albert Wen-Jeng Hsue albert.hsue@nkust.edu.tw	Recruit Requirement: Master/Ph.D Student Requirement: 1. TOEIC grade \geq 750, or equivalent capability 2. Interested at the fields of automation, smart manufacturing, specialized nontraditional machining processes, etc. 3. For Students who from China, Hong Kong, and Macao, Fluent Mandarin level in listening, speaking, reading and writing.	Scholarship provided associated with Research Assistant: 1. Ph.D. Students: <u>NT\$ 10,000/month</u> (Besides Official Scholarship from Taiwan Government and the University) for the first Year of Ph.D. program, and for the 2nd -3rd years, it could be above <u>NT\$ 20,000/month</u> depending on the RA performance. 2. Master Students: <u>NT\$ 7,000/month</u> above (Besides Official Scholarship from Taiwan Government and the University) for two years. 3. At least one Sponsorship for publication on the international conference each year. 4. Both programs are also provided with extra TA scholarship depending on the student's communication skill and capability. Optional paid internship jobs are also offered at the second or higher grades by the cooperative enterprise with our Lab.	1. Personal CV 2. Master thesis

College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

3	Mold and Die Engineering	1	蔡孟修 Kenny Meng-Hsiu Tsai tmh@nkust.edu.tw	<p>Recruit Requirement: Ph.D. Student RESEARCH FILED: Metal additive manufacture and materials SKILLS REQUIRED: 1. English: fluent (TOEIC > 750) 2. Open-minded, motivated and able to work in team SKILLS PREFERED: 1. Materials background (Phase transformation, microstructure and mechanical properties...) 2. 3D modeling software (Solid Works, AutoCAD...) 3. Mechanical simulation software (CF Design, Comsol)</p>	NT\$6,000/month	1. Personal CV 2. Master thesis
4	Mold and Die Engineering	1	歐士輔 Shih-Fu Ou m9203510@nkust.edu.tw	<p>Recruit Requirement: Ph.D. Student RESEARCH FILED: SURFACE TREATMENT for biomedical applications SKILLS REQUIRED: 1. English: fluent (TOEIC > 750) 2. Open-minded, motivated and able to work in team SKILLS PREFERED: 1. Materials background (Phase transformation, microstructure and mechanical properties...) 2. Coating/film preparations</p>	NT\$6,000/month	1. Personal CV 2. Master thesis
5	Mold and Die Engineering	1	郭俊賢 Chun-Hsien Kuo chkuo@nkust.edu.tw	<p>Recruit Requirement: Master/Ph.D. Student Research Fields: Fuel Cell Systems; Micro-combustion; Computational Fluid Dynamics</p>		1. Personal CV 2. Master thesis or other written work

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

6	Mold and Die Engineering	1	郭承憲 Cheng-Hsien Kuo chuckkuo@nkust.edu.tw	Recruit Requirement: Master/Ph.D. Student RESEARCH FILED: CAD/CAM/CAE, Dissimilar materials joining SKILLS REQUIRED: 1. English: fluent (TOEIC > 750) 2. Open-minded, motivated and able to work in team SKILLS PREFERED: 1. Materials background (Phase transformation, microstructure and mechanical properties...) 2. CAD/CAM/CAE Software	NT\$6,000/month	1. Personal CV 2. Master thesis
7	Mold and Die Engineering	1	廖俊忠 Chun-Chung Liao liao0910@nkust.edu.tw	Recruit Requirement: Master/Ph.D. Student RESEARCH FILED: Powder Technology, Granular Flows, Thermal Fluids Science, Fast Pyrolysis of Biomass	NT\$8,000/month	
8	Mold and Die Engineering	1	謝宗翰 Tsung Han Hsieh thhsieh@nkust.edu.tw	Recruit Requirement: Master/Ph.D. Student RESEARCH FILED: Composite Material and Light Weight Structure SKILLS REQUIRED: 1. English: fluent (TOEIC > 750) 2. Open-minded, motivated and able to work in team SKILLS PREFERED: 1. Materials background (Polymer, nanocomposite, material property measurement) 2. Polymer & Composite-related forming process	NT\$6,000/month	1. Personal CV 2. Master thesis

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

9	Mold and Die Engineering	1	林俊宏 Jun-Hong Lin jhlin@nkust.edu.tw	Recruit Requirement: Master/Ph.D. Student Graduated in Science and Engineering related discipline (Background: Mechanical, Electrical, Materials Science, or Mechatronics)	NT\$3,000/month	
10	Mechatronic Engineering	2	余志成 Yu, Jyh-Cheng jcyu@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. Quality engineering using evolutionary optimization 2. Optical design and application of light guide 3. Intelligent service robots 4. Concurrent engineering	NT\$6,000~10,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)	1. Personal CV 2. Master thesis
11	Mechatronic Engineering	2	黃明賢 Huang, Ming-Shyan mshuang@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: International students for Master/Ph.D. Degree Requirement: 1. TOEIC grade \geq 750, or equivalent capability 2. Interested at the fields of injection molding, polymer processing, smart machine, smart manufacturing, etc. Research Area: 1. Intelligent Injection Molding 2. Process Parameters Optimization 3. Mold and Machine Design 4. Rapid Mold Surface Heating 5. System Dynamics and Control	Scholarship provided associated with Research Assistant: 1. Ph.D. Students: <u>NT\$8,000~20,000/month</u> 2. Master Students: <u>NT\$5,000~10,000/month</u> Note: The amount of scholarship depends on the RA performance.	1. Personal CV 2. Master thesis

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

12	Mechatronic Engineering	3	曾奕丰 Tzeng, Yih-Fong franktzeng@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas. 2. TOEIC above 750 or equivalent English proficiency certificate. Research Area: 1. Taguchi Quality Engineering 2. UADSP for Mg and Al Alloy Foams 3. Energy-beam Materials Processing 4. Novel Continuous Process for Al Foams	<u>NT\$6,000~10,000/month</u> (In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)	1. Personal CV 2. Master thesis
13	Mechatronic Engineering	1	Liu, Yung-Tien ytliu@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. Ultraprecision machining 2. Smart manufacturing and Industrial 4.0 3. Precision positioning device using piezoelectric acuator 4. Precision measurement	<u>NT\$6,000~10,000/month</u> (In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)	

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

14	Mechatronic Engineering	1~2	Wu, Tsung-Liang wut@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. Intelligent manufacturing of machine learning base 2. Analysis of high coupling vibration signal 3. Finite element and finite volume	NT\$10,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)
15	Mechatronic Engineering	1	Cheng, Yung-Chang yccheng@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical engineering 2. TOEIC above 550 or equivalent English proficiency certificate Research Area: 1. Railway dynamic engineering 2. Dental implant design, optimization and 3D printing 3. Railway bogie design, optimization and manufacturing	NT\$6,000~10,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)
16	Mechatronic Engineering	2	Li, Chen-Jung cjli@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical and Mechatronics related areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. Optimization and monitoring of CNC machining processes 2. Applications and control of industrial robots	NT\$6,000~10,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

17	Mechatronic Engineering	1~2	Kuo, Wen-Cheng rkuo@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. MEMS/sensors and actuators 2. Microfabrication 3. Semiconductor application 4. Biomedical device	NT\$3,000~6,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)
18	Mechatronic Engineering	2	LIN, Bor-Tsuen bt_lin@nkust.edu.tw	Recruit Requirement: Ph.D. Student BACKGROUND REQUIRED: 1. Master degree in Mechanical, Mechatronics, and Automation areas 2. TOEIC above 750 or equivalent English proficiency certificate Research Area: 1. Automatic System for Product Design or Process 2. Innovative Stamping Die or Manufacture Process for Servo Press 3. Optimal Stamping Die Design or Manufacture Process 4. Smart Stamping Manufacture	NT\$10,000~20,000/month(In addition to Tuition waiver and Stipend provided by the Taiwan Government and the University)

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

19	Mechanical Engineering	1	徐金城 Jin-Cherng Shyu jcshyu@nkust.edu.tw	<p>Recruit Requirement: Ph.D. Student Requirement:</p> <p>1. TOEIC grade \geq 750, or equivalent capability</p> <p>2. Interested at the fields of thermo-fluid sciences, electronics cooling using single phase or two-phase flow, energy technology, etc.</p> <p>3. For Students from China, Hong Kong, and Macao, Fluent Mandarin level in listening, speaking, reading and writing.</p>	<p>Scholarship provided associated with Research Assistant:</p> <p>1. Ph.D. Students: <u>NT\$ 10,000/month</u> or above (Besides Official Scholarship from Taiwan Government and the University) depending on the RA performance.</p> <p>2. Sponsorship for presentation on the international conference each year.</p>	<p>1. Personal CV.</p> <p>2. Special report or master thesis.</p> <p>3. A study plan written in Mandarin or English.</p> <p>4. Letter of recommendation.</p>
20	Mechanical Engineering	4	方得華 Te-Hua Fang fang@nkust.edu.tw	<p>Recruit Requirement: Master and Ph.D. Student (2 Master and 2 Ph.D. Students)</p> <p>Graduated in Science and Engineering related discipline (Background: Mechanical, Mold and Die, or Mechatronics)</p>	<p>NT\$3,000/month to NT\$30,000/month</p> <p>Note: The amount of scholarship depends on the RA performance.</p>	<p>1. Personal CV.</p> <p>2. Special report or master thesis.</p> <p>3. A study plan written in Mandarin or English.</p> <p>4. Letter of recommendation.</p>

College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

21	Mechanical Engineering	2	黃華志 Hua-Chih Huang HC.Huang@nkust.edu.tw Huang.HuaChih@gmail.com	Recruit Requirement: Master and Ph.D. Student (each) Requirement: 1. TOEIC grade ≥ 375 , or equivalent capability 2. Interested in the fields of: -Machine Tool Design, -Fluid Film/Hydrostatic Bearing Design, -Engineering Optimization Algorithm/program Coding, -Automotive Mechanism Synthesis Design, -Energy-Saving Green Design, -ANSYS structural stress/strain analysis, -Machine Thermal deformation Analysis, -CNC Milling Process/Metal Cutting and Vibration Analysis.	Stipend provided associated with Research Assistant: 1. Ph.D. Students: <u>NT\$ 6,000~9000/month</u> (Besides Official Scholarship from Taiwan Government and the University), additional stipend from Prof. Huang. 2. Master Students: <u>NT\$ 3,000~6000/month</u> (Besides Official Scholarship from Taiwan Government and the University) additional stipend from Prof. Huang. 3. Stipend amount depends on the research performance and project funding. 4. Both programs are also provided with extra TA scholarship depending on the student's communication skill and capability.	1. Personal CV 2. Master thesis (for PhD application) 3. Published Journal/Conference papers
22	Mechanical Engineering	1	鄭宗杰 Tsung-Chieh Cheng tcchengme@nkust.edu.tw	Recruit Requirement: Ph.D. Student Requirement: 1. TOEIC grade ≥ 650 , or equivalent capability 2. Interested at the fields of Surface treatment, Solar tracking system and solar energy, Micro/Nano technology processes, etc. 3. For Students who from China, Hong Kong, and Macao, Fluent Mandarin level in listening, speaking, reading and writing.	Scholarship provided associated with Research Assistant: 1. Ph.D. Students: <u>NT\$ 10,000/month</u> (Besides Official Scholarship from Taiwan Government and the University) for the first Year of Ph.D. program 2. At least one Sponsorship for publication on the international journal each year. 3. Both programs are also provided with extra TA scholarship depending on the student's communication skill and capability. Optional paid internship jobs are also offered at the second or higher grades by the cooperative enterprise with our Lab.	1. Personal CV. 2. Special report or master thesis. 3. A study plan written in Mandarin or English. 4. Letter of recommendation.

29	Chemical and Materials Engineering	1	簡秀紋 Hsiu-Wen Chien hsiu-wen.chien@nkust.edu.tw	Recruit Requirement: Master/Ph.D Student Requirement: 1. TOEFL grade ≥ 85 , or equivalent capability 2. Students with chemistry related background 3. With experience in organic synthesis is preferred	Depending on the performance, the stipends will be raised to <u>NT\$6,000~NT\$10,000/month</u>	1. Personal CV 2. Master thesis
30	Chemical and Materials Engineering	2	鄭力誠 Li-Cheng Jheng lcjheng@nkust.edu.tw	Recruit Requirement: Master and Ph.D. Student (each) Requirement: 1. Students with chemistry or materials related background 2. Familiar with either membranes or fuel cells	Basic Stipends: <u>NT\$4,000/month</u> Depending on the performance, the stipends will be raised to <u>NT\$6,000~8,000/month</u>	1. Personal CV 2. With research experience and any relevant information e.g. publications
31	Chemical and Materials Engineering	2	潘俊仁 Chun-Jern Pan ppan@nkust.edu.tw pom9106054@gmail.com	Recruit Requirement: Ph.D. Student 1. Students with chemistry or materials related background 2. With Fundamental knowledge in electrochemistry or experience in material synthesis is preferred	1. Basic Stipends: <u>NT\$6,000/month</u> 2. Depending on the performance, the Stipends will be raised to <u>NT\$8,000~NT\$10,000/month</u>	1. Personal CV 2. Master thesis
32	Chemical and Materials Engineering	1	李建良 Chien-Liang Lee cl_lee@nkust.edu.tw	Recruit Requirement: Ph.D. Student Requirement: 1. The student graduated from College of Science or Engineering (e.g. Department of Chemistry or Chemical engineering). 2. The student can communicate with the professor using English. 3. Study interest in the shape control synthesis of metal nanoparticles, electrocatalysis, or electrochemistry.	Ph.D. Students: <u>NT\$ 6,000/month</u> (Besides Official Scholarship from Taiwan government and NKUST) during Ph.D. program (four years).	1. Personal CV 2. Master thesis

National Kaohsiung University of Science and Technology-
College of Engineering
Recruit Requirements of International Students (Master/Ph.D. Students)

33	Chemical and Materials Engineering	2	陳弘穎 Hong-Ying Chen hychen@nkust.edu.tw	Recruit Requirement: Master and Ph.D. Student (each) Requirement: Interested at the fields of thin films technology, atmospheric pressure plasma process, and first-principle calculations.	Scholarship for whom pursuit his/her degree. 1. Ph.D. students: Official Scholarship from Taiwan Government and/or the University for the first Year of Ph.D. program. 2. Master students: Official Scholarship from Taiwan Government and/or the University.	1. Personal CV 2. Master thesis or equivalence (Ph.D. students)
34	Construction Engineering	1	許鎧麟 Kai-Lin Hsu vichsu@nkust.edu.tw	Recruit Requirement: Ph.D. Student Graduated in Science and Engineering related fields with following abilities: (1) Reading/writing a journal article (2) Scheduling your own experiments (3) Presenting your own work (4) Experiencing in study fields on soil remediation, oxidation reaction, and wastewater treatment.	Extra <u>NT\$10,000/month</u> as a research assistant. (in addition, official Taiwan government scholarship is available to apply)	1. Personal CV 2. Master thesis
35	Safety, Health and Environmental Engineering	2	陳錫添 Chen,Shyi-Tien shyitien@nkust.edu.tw	Recruit Requirement: Master and Ph.D. Student(each) Graduated in Science and Engineering related fields with following abilities: (1) Reading/writing a journal article (2) Scheduling your own experiments (3) Presenting your own work (4) Experiencing in study fields on soil remediation, oxidation reaction, and wastewater treatment.	Extra <u>NT\$6,000/month</u> as a research assistant. (in addition, official Taiwan government scholarship is available to apply)	1. Personal CV 2. Master thesis 3.English: fluent with TOEIC > 750 (or equivalent)
36	Safety, Health and Environmental Engineering	1	李孟珊 Mengshan Lee mlee@nkust.edu.tw	Recruit Requirement: Ph.D. Student Preferred This position is open to prospective students with background in Environmental Engineering, Environmental Science or Geoinformatics Engineering, particularly for ones who are familiar with the fundamental knowledge of life cycle assessment, spatial analysis (remote sensing) or optimization techniques.	Minimum at <u>NT\$ 8,000/month</u> , depending on available funding opportunities.	1. CV 2. Statement of research (1 page) 3. Evidence of English proficiency (TOEFL or IELTS)
